PROFESSIONAL SUMMARY

L-2 IT Support Engineer with experience across Microsoft 365 and Microsoft Entra ID (Azure AD), resolving escalated incidents involving identity, access, and core M365 workloads. Strong in Windows, networking fundamentals, SLA-based case management, and compliant documentation, with a customer-focused approach and AI-assisted troubleshooting for faster resolution.

EXPERIENCE

Azure/Entra Identity Support Engineer L-2 **Kigali, Rwanda**
TeKnowledge **Feb 2026 - Present**

- Provide advanced support for Microsoft Entra ID (Azure AD), troubleshooting authentication and access issues including MFA, SSO, Conditional Access, and sign-in failures.
- Support Identity Governance and privileged access scenarios, including role-based access control (RBAC) and Privileged Identity Management (PIM) configuration/troubleshooting.
- Assist with directory synchronization and identity provisioning topics (e.g., Entra Connect / Cloud Sync), resolving user/object sync issues and access impacts.
- Perform technical investigations using logs and tenant configurations, document findings clearly, and drive resolution in line with SLAs and Microsoft support quality standards.

TeKnowledge **Kigali, Rwanda**
Microsoft 365 Technical Support Engineer L-2 **Oct 2025 – Jan 2026**

- Deliver advanced Microsoft 365 support, resolving complex and escalated incidents across Exchange Online, Teams, SharePoint, OneDrive, and related cloud services.
- Ensure secure and compliant configurations, optimize system performance, and guide customers through complex troubleshooting scenarios to restore service continuity and productivity.
- Maintain accurate and detailed case documentation, ensuring adherence to Microsoft standards, data protection policies, and high levels of customer satisfaction.

TeKnowledge **Kigali, Rwanda**
Technical Support Advocate **Jan 2025 – Sept 2025**

- Acted as a first point of contact for Microsoft customers, managing incidents end to end while supporting Windows OS and Microsoft Office applications to ensure reliable system functionality and user productivity.
- Evaluated severity levels, prioritized workloads, and escalated high-impact issues to Microsoft technical teams in line with SLAs.
- Documented cases thoroughly while maintaining compliance with Microsoft data protection and security standards.

CSR(Comprehensive Staffing Resources) LTD **Kigali, Rwanda Technical Support** **Aug 2024 - Jan 2025**

- Monitoring, detecting and responding to security threats using SIEM and OSINT tools. Gained skills in threat analysis, incident response and maintaining network security.
- Proficiency in network fundamentals and Microsoft 365 administration including user support, troubleshooting and system optimization.
- Enhanced skills in actively listening to users, understanding their problems, and providing clear, non-technical explanations.

EDUCATION

UNIVERSITY OF TOURISM TECHNOLOGY AND BUSINESS STUDIES(UTB) **Gisenyi, Rwanda**

Bachelor of Business and Information Technology **Jan 2021 - July 2024**

CERTIFICATES

- **Microsoft Certifications & Training:** Office Troubleshooting Guard; Microsoft 365 Concierge (Usability, Devices, Installation & Activation); Microsoft 365 Copilot Essentials; Microsoft 365 Office & Server Troubleshooting

- **Cybersecurity & Networking:** Introduction to Cybersecurity (Cisco Networking Academy); Network Fundamentals (Cybrary)

- **Artificial Intelligence:** Artificial Intelligence Career Essentials (AICE) – ALX Rwanda

- **Professional Development:** English Proficiency Development Program – EF Rwanda

SKILLS

- **Microsoft 365 Administration:** Advanced support across **Exchange Online, Microsoft Teams, SharePoint Online, OneDrive**, including tenant/user administration, configuration guidance, service health triage, and complex troubleshooting to restore functionality and optimize performance.
- **Windows OS & Microsoft 365 Apps:** Strong proficiency troubleshooting **Windows** (profile, connectivity, authentication, performance, policy-related issues) and **Microsoft 365 Apps** (Word, Excel, Outlook, PowerPoint), with root-cause analysis and clear remediation steps.
- **Identity & Access (Azure / Entra):** Hands-on support for **Microsoft Entra ID (Azure AD)** scenarios such as authentication/sign-in troubleshooting, MFA, SSO, Conditional Access, user/device identity troubleshooting, and access governance fundamentals.
- **Security Operations & Best Practices:** Experience with **monitoring, alert triage, and incident response** using OSINT tools, applying security best practices (least privilege, secure access, strong authentication, and incident documentation).

- **Networking Fundamentals:** Solid understanding of **TCP/IP, DNS, HTTP/S, proxies, VPN concepts, and secure configurations**, used to troubleshoot identity and Microsoft 365 connectivity/authentication issues.
- **Operating Systems: Windows (primary), Linux, iOS** — comfortable troubleshooting user endpoints and client-side factors impacting cloud access.
- **Ticketing Systems & Case Management:** Skilled in **case intake, prioritization, escalation, and end-to-end incident ownership**, maintaining SLA alignment, strong customer communication, and structured troubleshooting notes.
- **AI Tools & Automation:** Use of AI-assisted tooling for **faster triage, log interpretation, knowledge base lookup, and workflow automation**, improving time-to-resolution and investigation quality.
- **Documentation & Compliance:** Consistent, high-quality **case documentation, technical reporting, and adherence to Microsoft data protection/compliance standards**.
- **Professional Strengths:** Strong **communication**, teamwork, adaptability, analytical thinking, and rapid learning — effective in customer-facing troubleshooting and complex escalations.
